OTW CROWD CONTROL BILLBOARD BARRICADE

PRODUCT OVERVIEW

The OTW Crowd Control Billboard Barricade is a portable, interlocking crowd-control barrier with folding support feet and a built-in sign-panel area. Eight-foot sections connect without hardware to form continuous lines for pedestrian crowd control. Optional hanging weights add stability, and the support feet fold inward so barricades nest and stack flat for storage.

FEATURES & BENEFITS

- Custom sign panels mount to either face for sponsorship, wayfinding, or safety messaging
- Accepts up to two OTW Crowd Control Billboard Barricade Hanging Weights (CC-H-WEIGHT-18) for added stability
- Barricades interlock to form a continuous wall with no additional hardware
- Support feet close flush, allowing barricades to nest and stack flat
- Easy deployment, one-person carrying and placement
- Available in nine standard colors, with custom colors also available
- One-year manufacturing defect warranty
