

LOW PROFILE DELINEATOR AR3

The AR3 Low-Profile Delineator (LPD) was designed to provide airports and heliports with a more stable marker than alternatives such as cones and other lightweight products used near aircraft.

The LPD weighs only 5 pounds empty, making it easy to deploy and retrieve. Once ballasted with water, it can weigh up to 45 pounds, making it highly resistant to surface winds, jet blast, prop wash, and other environmental challenges. Bright OSHA orange and white colors create superior visibility for both pilots and ground workers.

FEATURES & BENEFITS

- Meets FAA A/C 150/5370-2F specifications
- Jet blast resistant
- Frangible
- 3-degree angled sides increase visibility
- Stackable for easy storage
- "Buy America Act" Compliant

OPTIONAL ACCESSORIES

- AR Flag (orange or white)
- 360-degree solar hazard light (flashing or steady burn)
- Delineator posts

COLORS

Safety orange

COMPOSITION

Rotationally molded UV-resistant High Density Polyethylene (HDPE)

SIZE

Height: 12 in / 30.5 cm
Length: 12 in / 30.5 cm
Width: 12 in / 30.5 cm
Wall: 0.20" / 5.08 mm

WEIGHT

Empty: 5.4 lb / 2.45 kg
Full: Apprx 45 lb / 20.6 kg
*Weight calculation based on 5 standard US gallons of water

PALLET LOADING

Dimensions: 48" x 48" x 48"
Capacity: 64 units
