

OTW 32" LCD

OTW32x45 LCD

The new compact 32-inch LCD barricade represents the next step in the evolution of temporary plastic safety devices. It's smaller and lighter than any of our other models and features the most unique geometry we have designed thus far.

This innovative new part is a hybrid of the well-known Jersey shape and the more effective F-shape – widely regarded as the safest shape for drivers in a collision. What really makes this barricade different is the interior geometry that allowed for a significant size decrease while maintaining the function and impact strength of a larger barricade.

At 32 pounds empty, this barricade is not only easier to handle and reposition, it's easier to ship as well. We can now supply 810 linear feet in each full truck load.

FEATURES & BENEFITS

- Rigid internal structure provides impact strength in a smaller size
- Supports up to two traditional pancake-style lights
- Set up requires no additional hardware or parts
- Barricade allows for water ballast expansion in freezing conditions
- One-year manufacturing defect warranty

COLORS

Safety orange and white

COMPOSITION

Rotationally molded UV-resistant Low Density Polyethylene (LDPE)

SIZE

Height: 32.125" / 81.5 cm

Length: 46" / 116.8 cm

Width at Base: 20.375" / 51.8 cm

Width at Top: 10.5" / 26.7 cm

WEIGHT

Empty: 32 lb / 14.5 kg

10.5 gallons: 120 lb / 54.4 kg

56.1 gallons (max fill): 500 lb / 226.8 kg

Weight calculation based on standard US gallons of water.

PALLET LOADING

Pallet Dimensions: 68" x 91" x 4"

Pallet Capacity: 24 units

FTL Capacity: 216 units
