OTW AIRPORT BARRICADE FLAG KIT

PRODUCT OVERVIEW

The OTW Airport Barricade Flag Kit provides highly visible daytime marking for airport construction and maintenance zones. Developed in collaboration with Salt Lake City International Airport, the system uses an interchangeable vinyl flag, a durable fiberglass dowel, and an active detent-spring retention system designed to reduce the potential for foreign object debris (FOD). The fiberglass dowel is strong and frangible to help reduce damage if struck by an aircraft.

FEATURES & BENEFITS

- Active retention system helps reduce potential FOD
- Durable, frangible fiberglass dowel
- Flag attaches to the dowel with a single screw
- Interchangeable orange or white flag
- Direct installation in compatible OTW airport barricades and delineators
- Meets the supplementary-flag requirements of FAA AC 150/5370-2G
