

31" DEFENSIVE BARRICADE MB31X120

Our heavy-duty security barricades offer superior anti-terrorism and force protection to safeguard critical assets. The MB31x120 offers the ideal solution to infrastructure stand-off requirements, vehicle channeling, and access control points. Ballasted with water or sand, these defensive barricades create a substantial physical deterrent to attempted unauthorized access in sensitive areas. With heightened security situations, rapidly stationing physical barrier plans is paramount.

Empty, these barricades are lighter and easier to put in place than concrete barricades, requiring only two people to set up and fill, which eliminates the need for heavy machinery. Interlocking with our easy to install tamper resistant U-Connectors, they create a continuous wall, adding strength to an already formidable obstacle.

FEATURES & BENEFITS

- Ideal in high-threat environments
- Easily deployed without the need for heavy machinery
- Discourages vehicle borne threats
- Mitigates high-speed avenues of approach
- Able to form a continuous wall utilizing our "U" connector (sold separately)
- "Buy America Act" Compliant

COLORS

Safety orange and white, custom colors available with minimum purchase

COMPOSITION

Blow molded UV-resistant High Density Polyethylene (HDPE)

SIZE

Height: 31 in / 78.7 cm
Length: 120 in / 304.8 cm
Width: 24 in / 60.9 cm

WALL THICKNESS

Standard: 0.25 in / 6.35 mm
Heavy Duty: 0.375 in / 9.53 mm

WEIGHT*

Standard
Empty: 135 lb / 61.2kg
Full: Apprx 2800 lb / 1270kg
Heavy Duty
Empty: 175 lb / 79.4 kg
Full: Apprx 2840 lb / 1288.2 kg

*Weight calculation based on 248 standard US gallons of water
